1. **Revenue concentration:** Technology is the leading category by sales ($836,154).
2. **Profit engine:** Technology contributes the highest total profit ($145,455); assess margin and product mix before scaling.
3. **Regional performance:** West leads sales ($725,458); compare its category mix with other regions.
4. **Customer segment:** Consumer has the highest sales ($1,161,401); evaluate retention and repeat-purchase opportunities.

5. **Seasonality:** The strongest month in the observed data is 2018-11 ($118,448); plan inventory and staffing using recurring monthly patterns.
6. **Discount risk:** Discount band >30–40% has the lowest aggregate profit ($-25,448); inspect the product and order mix behind high discounts.
7. **Profitability control:** Use the sub-category matrix to identify sales-heavy but low/negative-profit areas and review pricing, cost, and discount policies.
